Over the past few years, the Institute for Prospective Technological Studies (IPTS) has been carrying out research in the field of ageing, with a focus on the role that Information and Communication Technologies (ICT) can play to promote Active Ageing. IPTS has looked at the issue from several perspectives, including the socio-economic and technological dimensions of both the ageing phenomenon and the Active Ageing policies that the EU is now adopting. *Information and Communication Technologies for Active Ageing* attempts to reflect aspects of the contribution ICT can make to quality of life for older citizens in Europe. Benefits can be found in health, employment, housing and elsewhere. The potential market for innovative solutions in ICT for Active Ageing is crucial for the European economy and for the society at large. The European Union has the opportunity to become a research and market leader through innovative applications and services for ageing. Moreover, the promotion of societal values in Europe regarding ageing can serve as a model for other ageing societies. This book is to be expected to contribute to the debates on ICT for Active Ageing and provide important hints for research in the field fostered by the European Commission’s Directorate General for Information and Media.
Contents:

- Preface / P. Kind and G. Comyn
- Ageing Societies, Information and Communication Technology and Active Ageing: Introductory Remarks / M. Cabrera and N. Malanowski

Key Elements of Ageing Societies

- The Impact of Global Ageing on Labour, Product and Capital Markets / A. Börsch-Supan
- Active Ageing in Europe: Policy Discourses and Initiatives / A. Walker
- Quality of Life: Conceptual Challenges in Exploring the Role of ICT in Active Ageing / M.L.M. Gilhooly, K.J. Gilhooly and R.B. Jones
- The "Silver Market in Europe": Myth or Reality? / O. Gassmann and M.M. Keupp
- Japan: State of Active Ageing / I. Masaaki Shiraishi

ICT for Active Ageing in Selected Fields

- ICT-Based Applications for Active Ageing: Challenges and Opportunities / N. Malanowski
- Active Ageing and ICT for Learning / K. Ala-Mutka and Y. Punie
- ICT for Employability / S.E. Peacock
- ICT for Health: Social Computing / M. Cabrera and J.A. Valverde
- ICT for Inclusion: Challenges and Opportunities for Bridging the ICT Divide / E. del Hoyo-Barbolla, S. Guillén and M.T. Arredondo
- ICT for Housing / W. Paulus, J. Hilbert and W. Potratz
- ICT for Independent Living Services / M. Cabrera and R. Özçivelek
- Future ICTs for Active Ageing: Brain-Machine and Brain-Computer Interfaces / R. Compañó
- Design for All: A Practitioner’s View / P.A. Moore
- Possible Ways Ahead: Concluding Remarks / N. Malanowski, M. Cabrera and J.-C. Burgelman

Order form:

If you would like to order one or more copies of the above, please fill in this order form and send it back to:

IOS Press, Promotion Department, Nieuwe Hemweg 6B, 1013 BG, Amsterdam, The Netherlands.

O I would like to order .... copies of Information and Communication Technologies for Active Ageing (US$167 / €115 / £86)

O Please bill me

O Please charge my credit card
O Amer. Express O Euro/Master O Visa

Exp. Date Security code
Card no.
